

DDA 83-0222/1

MEMORANDUM FOR: [REDACTED]

Chief, Planning Staff

Commo advises that FEMA needs a current listing of CIA officials for their emergency plan. OC thinks that these individuals would be those who represent the DCI at FEMA's special facility. They should, accordingly, have the authority to release cables on behalf of the DCI in any emergency. OC suggests that you might want to update the entire listing of CIA officials on file at FEMA who have been given this authorization.
